Thermoplastic Valves Full Listing

Eliminate Water Hammer with Slo-Close Valves

Patented thermoplastic gear driven operating nut rotates 360° to achieve a 90° turn of the ball. The result is slow closure and the elimination of water hammer, while maintaining the positive shut-off and reliable service of a ball valve.

Unions

High pressure capacity makes this a robust piping solution for commercial, industrial, agricultural and irrigation applications.

101 Industrial Full Block™ 101N Series True Union Ball Valve (TUBV)
